Summary

As a passionate and results-driven software engineer, I thrive on the exhilaration of conquering complex challenges and turning groundbreaking concepts into real-world solutions. With a solid foundation in software development and an unwavering commitment to continuous learning, I am resolutely dedicated to remaining at the forefront of evolving technology trends and industry best practices.

My professional journey has seen me venture into various domains, from full-stack web development to data analysis and mastery of Django REST framework. Throughout this experience, I've been fortunate to work on projects that have not only driven business success but also made a tangible, positive impact on end-users. My philosophy is rooted in a deep sense of collaboration, the art of effective communication, and a tireless pursuit of excellence in every facet of software development.

I'm eagerly looking forward to connecting with fellow professionals, exchanging knowledge, and embracing new opportunities that allow me to contribute to impactful projects and forge innovative software solutions. Let's establish that connection, and together, let's explore the boundless potential we have in shaping the ever-evolving world of technology

Experience

Frontend Developer

Queryfier LLC

Aug 2022 - Present (1 year 3 months)

As a Front-End Web Developer at Pyvault, I played a crucial role in creating visually stunning and highly functional websites. My responsibilities included:

Web Development: Designing, developing, and maintaining responsive and user-friendly web applications and sites using cutting-edge web technologies such as HTML, CSS, JavaScript, and various front-end frameworks (you can specify the frameworks you used).

User Interface (UI) Design: Collaborating with designers and stakeholders to implement captivating and intuitive user interfaces, ensuring a seamless and enjoyable user experience.

Cross-Browser Compatibility: Ensuring that websites and applications were compatible with multiple web browsers and responsive to different screen sizes and devices.

Performance Optimization: Implementing performance enhancements, including code optimization and image compression, to achieve faster load times and improved user experience.

Testing and Debugging: Thoroughly testing and debugging code to identify and resolve issues, ensuring the reliability and functionality of web projects.

Version Control: Utilizing version control systems, such as Git, to manage code repositories and collaborate with team members efficiently.

Collaboration: Working closely with back-end developers, designers, and project managers to deliver high-quality web solutions on time and within scope.

Staying Current: Continuously expanding my knowledge and staying up-to-date with the latest web development trends, best practices, and emerging technologies to bring innovative solutions to projects.

During my tenure at Pyvault, I successfully contributed to the development of captivating web solutions that met both client and user expectations. My dedication to front-end development and my commitment to delivering high-quality work allowed me to play a pivotal role in the company's web projects.

Senior Analyst

HCLTech

Dec 2021 - Mar 2022 (4 months)

As a Senior Analyst at HCL, I played a pivotal role in driving data-driven decision-making and optimizing operational processes. My responsibilities included:

Data Analysis: Leveraging data analysis tools and techniques to extract meaningful insights from complex datasets, enabling data-informed strategies and decision-making.

Process Optimization: Identifying inefficiencies and bottlenecks in existing processes, and implementing solutions to enhance operational efficiency, reduce costs, and improve overall productivity.

Reporting and Visualization: Creating comprehensive reports and data visualizations to communicate key findings and trends to stakeholders, facilitating a deeper understanding of business performance.

Team Collaboration: Collaborating closely with cross-functional teams, including data scientists, business analysts, and IT professionals, to ensure alignment and successful project execution.

Project Management: Leading and participating in projects focused on data analysis, process improvement, and operational excellence, resulting in measurable positive outcomes for the organization.

Continuous Learning: Staying at the forefront of industry trends and emerging technologies, ensuring that my analytical skills remained cutting-edge and relevant.

My role as a Senior Analyst at HCL allowed me to contribute to the organization's growth and success through data-driven strategies and process improvements. I'm proud of the positive impact my work had on the company's operations and look forward to applying my expertise in future opportunities.

Education

Akademia Humanistyczno-Ekonomiczna w Łodzi

Bachelor's Degree, Computer Science

2019 - 2022

Licenses & Certifications

Front End Development Libraries - freeCodeCamp
fcc99db3891-50d2-4aac-b39b-feddc4f47b1f

Back End Development and APIs - freeCodeCamp
fcc99db3891-50d2-4aac-b39b-feddc4f47b1f

Skills

Django REST Framework • Full-Stack Development • Teamwork • Analytical Skills • Data Analysis •
Node.js • Vue.js • Software Development Life Cycle (SDLC) • Agile Methodologies
